EDUCATION BACKGROUND

Universitas Bina Nusantara — Jakarta, DKI Jakarta
Bachelor of Computer Science — Aug 2022 - Feb 2026
GPA 3.76 / 4.00

PROFESSIONAL EXPERIENCES

NTT Technology Indonesia — Jakarta, DKI Jakarta
Software Developer — Jun 2026 - Present
Placement at Prudential Indonesia | Correspondence Team

- Assigned to migrate enterprise e-documents from a legacy setup to a new system using HTML, CSS, Javascript, and Postman to generate PDF output
- Migrated dynamic e-policy printing, templates, and document business logic for multiple insurance products, including PRUSehat, PRUSehat Syariah, PRUEterna, PRULady, and PRUMapan.
- Built clean code structures to simplify maintenance and future development for the team
- Contributed to reducing system and licensing cost by ~99% by replacing the legacy setup with an efficient new system
- Applied SCRUM methodology and JIRA to manage tasks, sprint backlogs, and ensure on time project delivery

Kawan Lama Group — Jakarta, DKI Jakarta
Software Engineer Intern (**Best Intern 2025**) — Feb 2025 - Jun 2026
Placement at Corporate IT | Payroll & HR System Team

Kawan Lama Academy (30,000+ Active Users)

- Built frontend architecture using **Nuxt.js**, TypeScript, and TanStack Query.
- Developed role based feature for 4 user roles (Student, Trainer, Admin, Superior), including Course and Program Management, Google Calendar Integration, Dynamic Feedback Templates, and Completion Tracking.
- Collaborated with cross functional teams (Backend Engineers, UI/UX, PM), and participated in user discussion

Karir Kawan Lama (E-Recruitment Platform Revamp)

- Revamped a fullstack, AI Powered E-Recruitment system using **ASP.NET MVC**
- Integrated Google Conversational Agent CV OCR, reducing manual candidate data entry by 70%
- Developed AI Chatbot that cut repetitive recruiter inquiries by 40-50%
- Strengthened platform reliability by implementing rate limiter, Google reCaptcha, transaction logging (NLog), chatbot session management, and daily job scheduler.
- Revamped the overall design, delivering the updated layout, typography, and UI components

New HCPlus (Internal HR Management System)

- Contributed to the development of the core HR system, using **Remix / React Router**, TypeScript, and TanStack Query.
- Developed modules, focusing on Leave and Absence workflow
- Implemented Remix best practices, including server-side loaders/actions, nested routing, and isolated error boundaries

ORGANIZATIONAL & VOLUNTEER EXPERIENCES

Bina Nusantara — Jakarta, DKI Jakarta
Freshmen Leader — Jul 2023 - Sep 2023

- Provided guidance to freshmen, collaborating with leaders for successful program execution.

PROJECTS

POSnova (AI-Powered Point of Sales System) – **Group Project** — Bina Nusantara University
Thesis Final Project — Jun 2025 - Jan 2026

- Built a fullstack POS system using **Next.js, tRPC**, **Tailwind**, and **Supabase**.
- Implemented recommendation system using **Apriori** and **Content-Based Filtering** (Scikit-Learn).
- Designed hybrid architecture combining **Next.js** frontend with **Python (Flask)** for ML processing.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, C#, Python, SQL, C++
Frameworks & Libraries: React, Next.js, Nuxt.js, Remix, Express.js, ASP.NET, Flask
Databases: SQL Server, MySQL
Tools / Methods: Git, Postman, JIRA, Scrum / Agile
